

Wild and Stormy Weather

So far this year we have seen a number of severe weather warnings and named storms, most recently Dudley, Eunice and Franklin as well as generally windy weather.

As a result of the high winds there has been an increase in the number of damaged fences being reported, to the point that our contractors have been inundated.

If you do have storm damage to your fence please let us know and if possible send photographs showing the damage.

We will prioritise repairs which represent a danger to our tenants, neighbours and the general public. We will be working with our contractors to complete all fencing repairs reported to us, however this process may take a bit longer.
